## PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building responsive, interactive web applications and SaaS products using React, TypeScript, and modern frontend technologies. I've delivered 15+ page internal platforms, 40+ page SaaS products, and complex multi-role applications, while maintaining a 95–100% on-time delivery rate across projects. Experienced working both on-site and in hybrid teams.

## WORK EXPERIENCE

---

### Front-end Developer

MokletDev, Indonesia, On-site

July 2023 – June 2025

- Built and maintained digital platforms serving 1,200+ daily active users, including MokletApp for learning, academics, student records, and online exams.
- Developed Telkom Society, a student collaboration platform for teams, portfolios, projects, and profiles, reducing manual process time by up to 80%.
- Achieved a 95–100% on-time delivery rate across assigned projects.
- Trained 5 junior frontend developers in JavaScript, Tailwind CSS, and React, enabling them to independently build 6+ page responsive applications with API integration.

### Front-end Developer

Wowrack, Indonesia, Hybrid

November 2025 – April 2026

- Built the frontend of Wowrack Recruitment Portal, an internal recruitment platform covering the application-to-hiring workflow.
- Developed 15+ responsive, interactive pages across 4 roles: Hiring Manager, HR, Admin, and Candidate.
- Built reusable, role-based interfaces with React, TypeScript, and Tailwind CSS for Wowrack's custom recruitment workflows.
- Helped consolidate recruitment processes previously managed across 4 platforms, contributing to an estimated 4× improvement in process efficiency.

### Full-stack Developer

Freelance, Indonesia, Hybrid

December 2023 – Present

- Built and delivered complex web applications and SaaS products, ranging from 25–50+ pages with multi-role workflows and responsive interfaces.
- Developed products across pharmacy, education, business management, and SaaS, translating diverse business requirements into functional frontend experiences.
- Delivered additional responsive client websites for businesses and organizations, from design implementation to production-ready interfaces.

## SKILLS

---

- React, Next.js, JavaScript, TypeScript, Tailwind CSS, GSAP, Responsive & Interactive UI Development
- Self-managed workflow, strong ownership, problem solving, attention to detail, and consistent on-time delivery
- Async communication, clear documentation, task coordination, and proactive collaboration.
- Fluent in English & Native Indonesian Speaker

## CERTIFICATIONS

---

- Software Development Certification — Certiport, A Pearson VUE Business
- Certificate of Competency in Full-Stack Development — DOT Indonesia
